

SURVIVE AND THRIVE IN A COMBINED GRADE CLASSROOM!

This workshop will provide you with organizers, ideas and practical methods for “Surviving and Thriving in a Combined Grade Classroom”.

These practical skills will aid you in your planning. You’ll see how to align assessment strategies with the learning objectives for different grade expectations. You will see how to implement parallel programs that can work together at the same time and in the same space.

Finally, be ready to learn about ways to relieve Your personal stress so that you can focus upon supporting your students learning and achievement within an environment of acceptance and balance.
